

com.android.server.power.
PowerManagerService.isScreenOn

```
graph LR; A[com.android.server.power.  
PowerManagerService.isScreenOn] --> B[com.android.server.power.  
PowerManagerService.isScreenOn  
Internal];
```

A diagram showing a call from a public API to an internal method. On the left, a gray box contains the text 'com.android.server.power. PowerManagerService.isScreenOn'. A blue arrow points from this box to a white box on the right. The white box contains the text 'com.android.server.power. PowerManagerService.isScreenOn' followed by 'Internal' on a new line.
